## TABLE OF CONTENTS

---

**APPENDIX A. CENSUS BUREAU DATA ..... 1**

This section presents an additional table from the Census Bureau that contains data regarding decennial census population counts as well as intercensal estimates for selected years from 1970 through 2015 for each county in Wyoming

**APPENDIX B. DEPARTMENT OF TRANSPORTATION DATA ..... 3**

The tables presented in this section shows the number of driver’s licenses exchanged or surrendered in Wyoming by county from as gathered from Wyoming Department of Transportation.

**APPENDIX C. BUREAU OF LABOR STATISTICS DATA ..... 9**

This section shows employment, labor force and unemployment statistics, both annually and the most recent monthly estimates.

**APPENDIX D. BUREAU OF ECONOMIC ANALYSIS DATA ..... 17**

This section show detailed tables on employment and earnings by industry

**APPENDIX E. CENSUS BUREAU BUILDING PERMIT DATA..... 140**

This section shows the number and value of permits issued by unit type.

**APPENDIX F. RENTAL VACANCY SURVEY DATA ..... 150**

This section provides additional data from the Rental Vacancy Survey by county, as well as detailed regional level tables.

**APPENDIX G. HOUSING NEEDS ASSESSMENT SURVEY DATA..... 156**

This section shows a the complete survey results by qestion, year and county.

**APPENDIX H. WCDA HOMEBUYER PROFILE DATA ..... 209**

This section displays detailed information about the households with WCDA loans.

## **APPENDIX A. CENSUS BUREAU DATA**

---

This section presents an additional table from the Census Bureau that contains data regarding decennial census population counts as well as intercensal estimates for selected years from 1970 through 2016 for each county in Wyoming.

\* Out-of-state comprises mostly military personnel stationed elsewhere in the country.

\*\* Totals may differ slightly from those in Volume I because some records may lack a gender or cohort classification and were therefore not counted.

## **APPENDIX C. BUREAU OF LABOR STATISTICS DATA**

---

Labor force data are from the Bureau of Labor Statistics (BLS) and the Wyoming Labor Market Information (LMI) provided by the Wyoming Department of Workforce Services. These data are estimated from the Current Population Survey (CPS) and have been adjusted for commuting and dual job holding. The data represent persons by place of residence and may include workers involved in Labor Management Disputes.

According to the BLS, the sum of individual items may not always equal the totals due to independent rounding off of totals and components to the nearest thousand.

## APPENDIX D. BUREAU OF ECONOMIC ANALYSIS DATA

---

The U.S. Bureau of Economic Analysis (BEA) employment and income data are drawn, in part, from income tax filings; hence, 2015 was the year for which the most current data was available.

The Office of Management and Budget (OMB) introduced the North American Industry Classification System (NAICS) to replace the Standard Industrial Classification (SIC) system.<sup>3</sup> The NAICS system makes it possible to compare industry statistics among international, state and local economies. NAICS groups economic activities into 21 sectors, up from the 10 divisions in the SIC system. The use of the NAICS makes substantial time series breaks in most industries, which will affect projections and comparisons of statistics over time due to differences in the two systems. One of the major differences is the structure of the NAICS taxonomy, which is based on a production-oriented, or supply-based, conceptual framework instead of the output-based framework used in the SIC.

Beginning with the 2001 data, the BEA used the NAICS in place of the SIC system. The employment and earnings data in this section present the latest NAICS data available for 2001 through 2015. Statewide data is available from 2001 to 2015.

The following concepts are used in this section:

*Employment* represents jobs, not labor force (which counts individuals). These jobs include proprietorships, agricultural work, domestic employment, and casual labor jobs.

*Income* data includes earnings from work as well as unearned income sources, such as property income (dividends, interest, and rent), and government transfer payments, such as welfare. Personal income represents place of residence data. All income data are presented in terms of real 2011 dollars and have been adjusted to reflect the effects of inflation.

*Earnings* were derived from place of work data that included all workers, labor, and proprietors. Social security contributions were subtracted along with a residence adjustment that corrected for earnings of persons living out-of-state.

Missing data represented by “.” in the tables are not always zeros; they may represent a decision by the BEA to restrict release of the information due to any of the following reasons:

Not shown to avoid disclosure of confidential information; however, the estimates for this item are included in the total.

Less than \$50,000; however, the estimates for this item are included in the total.

(N) Data not available during a year.

---

## **APPENDIX E. CENSUS BUREAU BUILDING PERMIT DATA**

---

According to the Census Bureau, “(a) housing unit is a house, an apartment, a group of rooms or a single room intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have a direct access from the outside of the building or through a common hall. In accordance with this definition, each apartment unit in an apartment building is counted as one housing unit.”

The Census Bureau collects new, privately owned residential building permits from individual permit offices on a voluntary basis only. Geographic areas are defined by the Census Bureau. The frequency of reporting is either monthly or annual. Very few areas report monthly in Wyoming, and those that do have significant delays in reporting. Consequently, only annual data are reported herein.

The first five tables in this section report the number of new, privately owned residential building units permitted. The next four tables report the valuation of new units permitted as reported voluntarily to the Census Bureau and expressed as real 2011 dollars, or adjusted to reflect the effects of inflation. It should be noted, as well, that when a permitting process does not cover an area, valuation and permit data may be underrepresented.

## **APPENDIX F. RENTAL VACANCY SURVEY DATA**

---

The Wyoming Semiannual Rental Vacancy Survey (RVS) has been completed 25 times, every six months, starting in July 2001 to most recently, December 2017. This survey is implemented via telephone and has proven to have high response rates and more complete and consistent answer sequences.

This section tabulates answers for a variety of questions. However, for all the improved techniques, respondents are not always able to completely answer every question sequence. For example, when asked about total units they were usually able to answer, but sometimes respondents were not able to provide the discrete breakdown of the type or size of all their units. Consequently, the sum of the details in the following tables may not always equal the total. The December 2017 survey resulted in 1,233 completed surveys with property managers who oversaw a total of 26,780 units.

County	Studio	1 bdrm	2 bdrm	3 bdrm	4 bdrm	5+ bdrm	Not Sure	Total

## **APPENDIX G. HOUSING NEEDS ASSESSMENT SURVEY DATA**

---

These data are summarized from surveys administered at local Department of Motor Vehicles (DMV) driver's license offices throughout Wyoming, and over the phone based on records provided by the Wyoming Department of Transportation. These survey instruments are voluntary and directed to those individuals who come into local DMV offices to exchange their out-of-state license for a Wyoming license. Hence, the survey represents the situations, feelings, and opinions of new residents to Wyoming.

Data in this section are presented as a percent distribution of all responses. These percent distributions may differ from those presented in Volume I of the Profile because those narratives represent a subset of all responses rather than the entire sample.

<b>Table G.25</b> <b>Do you have any additional comments or concerns you would like to share?</b> State of Wyoming HNA Survey, Calendar Year 2017 <b>Comments</b>	
<p>"Thank God for Wyoming &amp; Family"</p> <p>92 years old and came to live with daughter</p> <p>A few things about living here in Cheyenne, Laramie County. I believe we need to overhaul our state tax system. I don't believe it is working for the people. I also see a denial by state legislators &amp; officials in regards to climate change. I think we need to believe the science &amp; our eyes when it comes to climate change. I think state officials do a great dis service to the citizenry when they deny the evidence of climate change. I have been in the coal, power plant &amp; renewable energy sectors, I know.</p> <p>a little discouraged by the housing option by what is out on the market to rent the option that are available are very run down and not suitable for a family.</p> <p>absolutely love it here, i was a little apprehensive at first but after coming out to check things out i have fallen in love with this place absolutely love it here, it has truly become home to me</p> <p>also moved here for the peace &amp; quiet; open space.</p> <p>are not able to find what we are looking for so that is why we are building, we had to buy land and build. even then it wasn't readily available and the realtor companies here are big money hungry not very interested in doing business with in town home market (residential)</p> <p>best thing I have ever did, I just love it here.</p> <p>can't find a job in Cheyenne, so she has to move to Rawlins. one place had 2 opening and 2200 applications. too many Colorado people crossing the border to work.</p> <p>can't find affordable housing</p> <p>Cheyenne property management group are very untrustworthy stay away from them</p> <p>didn't want to answer any more questions 1/2 way through.</p> <p>doesn't like wyoming. going to move back to washington.</p> <p>doesn't pay rent or utilities. no income last year; she was a student.</p> <p>don't raise the taxes!!</p> <p>enjoy wyoming very much</p> <p>excited to be home. she's from WY originally.</p> <p>good place to have live stock, he lease a ranch that includes his home and all utilities for \$100,000 a year</p> <p>great experience, should have done this 30 years ago!</p> <p>great place to live</p> <p>great place with great people can't complain</p> <p>great State, love it here!</p> <p>grew up here and always wanted to come back and finally did</p> <p>had a very had time finding housing for over a year</p> <p>Happy to be back home</p> <p>he doesn't want to do the survey but explained that he had a house he was buying under some contract and the WCDA took it from him after some amount of time. they said his credit score was 20 pts lower than it needed to be and he had to give up the house. he is obviously very unhappy with the WCDA at this time.</p> <p>he wishes the people who want windmills, would put them in their own area. apparently, the east coast wants to use windmills for green energy, but didn't want them blocking their views, so they're putting them up in WY, just down the road from him.</p> <p>He would rather live in Jackson, but there is a shortage of affordable housing in the city, so many younger people are having to live outside the city and commute because they can't afford the housing prices.</p> <p>his only concern is, not so much a lack of services, but a lack of expertise. seems like people in charge try to do too much without the proper knowledge or training.</p> <p>housing is expensive</p> <p>housing is problem here not enough and not enough affordable housing, when i first moved here i was scammed out of 1500. i was online looking for housing before i moved and i found this house on craigslist and everything seemed great and we signed papers and everything but when i got here i found it was just a big scam and i guess it happens a lot here because of the lack of rentals in this area</p> <p>Housing is very expensive here</p> <p>I am disabled &amp; have a son who takes care of me. The one thing I would like to see here in Rock Springs, Sweetwater County is more activities for seniors. I would also like to see more outreach programs for disabled folks.</p> <p>I am disabled living on disability payments here in Shoshoni, Fremont County. I moved here from California. I was not to that when you are on disability and move into Wyoming your monthly disability payments are cut. Don't know why this would be but I am unhappy about it.</p> <p>I am in Educational Services &amp; see several problems with the housing market here in Carbon County. When I moved here I found it hard to find the type of housing unit I was used too. I was looking to get into a house were as the predominant unit type here is a mobile home or trailer. I have a hard time attracting good tenured teacher now because of the lack of good housing. Since we are in a small town &amp; the lack of housing options puts our community at a disadvantage when it comes to attracting good teachers to teach our youth.</p> <p>I am retired, disabled veteran living with my wife in Story, Sheridan County. We moved here a little over a year ago for our golden years, we love it here.</p> <p>I feel it is hard to get adequate healthcare here in Green River, Sweetwater County. I come from Colorado there you get medical assistance easy. Here you have to wait for a specialist to come to your local hospital before you get seen. In Colorado the local hospital has the specialist onsite. I am having a hard time with this &amp; the lack of stores.</p> <p>I feel Park County is being foolish. They have a law on the books that says if you live in the county for over six months out of the year you have too register your car here. I feel this puts the migrant laborers at a disadvantage. They might have a home someplace</p>	

else but to be with the law they have to register here. I don't feel this is fair.

I followed my heart and moved away from Wyoming, now I am following my gut & moving back to Wyoming.

I grew up here, moved back for work.

I have been discriminated against here in Cheyenne, Laramie County for not being a Christian. I don't feel good about the discrimination but what are you to do?

I have found my transition here to Laramie, Albany County to be a good one. I have already registered my Car & it actually went smoothly at WYDOT.

I have had a problem with the Medicare & Family Services Department. I have a medical problem that needs attention. I applied for my Medicare Card but still have not heard back from them. I have a medical problem that needs care. The red tape & lack of caring by those departments are putting my health at risk. Please do a better job when it comes to peoples medical health.

I just lost my job here in Laramie, Albany County. I hope to find a new one soon.

I love my little home, the housing market is not good here though. I find most of the housing prices are way too high for what they offer. I think I got a good deal on my unit. I feel like an outsider here in my little town. The people who have lived here treat me like an outsider.

I love the wide open spaces here in Rock Springs, Sweetwater County.

I might move to Washington State in a couple of months.

I moved away for eight months but now I'm back home in Greybull, Big Horn County. I'm living with my Parents right now.

I moved back to take care of my Grandson.

I moved back to Wyoming.

I moved here to Rock River, Albany County from Colorado to live with my Daughter & Son In-law. I love the ranching life, you just have to prepare for the cold.

I moved to Cheyenne, Laramie County from Oklahoma.

I think everything has been fantastic so far. We are closing on our own home this week. We love it here in Wyoming.

i think its a wonderful place

I think the traffic here is crazy. Most of the speed limits are 30 MPH I really don't think this is fast enough for the distances that need to be traveled. Besides that problem I think it is great here.

I think Wyoming is great. We just need the energy sector to pick back up. When that happens we will be doing great.

I would like to see more mountain bike trails. I would also like to find a place to keep a horse & ride.

I would rather be in California.

I'm from Wyoming, very happy to be back home. I love it here, good jobs & things to do.

I'm in the middle of remodeling my house. I really liked it here in the mid 80's & decided to retire here.

if we could just get rid of the wind

is not happy that they are tearing down all the older rental properties to build hotels. the owner of his building is just waiting for permits to come through and then he has to move because his building is being torn down for this purpose. also, housing is too expensive in this area.

it's a great place to live

it's a little expensive for what you get.

it's a little windy, but he's happy.

it's a long winter, but she's hearing that it's one of the worst ever, so she's hoping it ends soon.

it's a wonderful place for people to retire. only complaint is it used to be more open & free, but now there's alot of "no trespassing" signs. she lived here in the 70s & 80s and land owners used to be more open with their property and now they threaten you if you go on their property to take a photo or anything. she misses being able to roam freely, but says most of the people there are still friendly.

it's windy!

its been a huge adjustment, its a very small town feel.

just bought house, hasn't received any bills for mortgage or utilities yet.

Just got married & moved to Douglas, Converse County. I love it here.

less wind more rain

likes casper

likes living in Jackson.

lost him part way through

love it here

Love living here in Green River, Sweetwater County.

love wyoming, but a little concerned about

loves living in WY. it's a little windy.

loves wyoming

misses the ocean

more jobs would be nice. there are some, but they all require a trained skill that she doesn't have.

Moving to Wyoming is the best thing we ever did!

My boyfriend & I moved here to Casper, Natrona County from Portland, Oregon. We really love it here, the only complaint I have so far is the lack of recycling options here. We have to drive out of our way to take our glass, cardboard etc to a recycling center. In Oregon we had curbside recycling.

My husband and I both love it here in Wyoming.

My husband kids & I moved to Wyoming looking for a better life. We moved to Laramie, Albany County from Colorado. I think the Medicare services were better in Colorado. I have a disabled child and have many medical problems myself. We have run into spending limits & refusal of services from Medicare Wyoming were as Colorado Medicare would give us the medical help we need. We might have to move back to Colorado to get the medical help we need because we don't seem to be able to get it here in Wyoming.

My son & I just started a construction business here in Cheyenne, Laramie County. I don't see a lot of people here in town. I think the local economy could use some tourists or something, kind of slow here.

My wife & I are happy campers, here in Star Valley Ranch, Lincoln County.

My wife & I have enjoyed our move to Etna, Lincoln County. The people are nice & we just love it here.

My wife & I moved away from Wyoming about two years ago. We moved to Iowa, nice state but was not Wyoming. We are back for good now living in Riverton, Fremont County. We love it here & will never leave again.

My wife is from this area. I have had an eye on our house for twenty years. We are living a retirement dream here in Wyoming. need more housing near airport for workers/seasonal workers.

nice place to live and raise a family. also, better from a financial standpoint compared to NY where he was living.

not easy to find work in WY

not enough restaurants around

one of those places that's home and even if you leave, you always come back.

our lease is up in June and we are having a really hard time find a place to rent

Our move to Cheyenne, Laramie County has been a good one. The only problem I have is with the Wind. I'm from Montana and we have windy seasons, you all here in Wyoming have a big wind. Love it here though even with the wind.

Really love it here

seems like a lot of places are not pet friendly, rent is extremely high. like in Jackson its crazy they want like \$3,000 for a 1 bedroom apartment

she didn't want to complete the rest.

she grew up here when she was younger and is glad to be back.

sheridan is a bit high priced.

sometimes things don't get fixed right away, but they get to it eventually.

stop the wind!

terrible place to live, moving very soon. the housing market is horrible the homes around here are just extremely outdated and run down. you cant find anything for less then \$200,000 that is not falling apart. i feel like wyoming is the land of the forgotten. as a woman with a great education im finding it extremely hard to even just find a job here

the availability of affordable housing in this town for the working class is just non existent

the housing cost is a little high for what I am use to but I guess that all depends on the area that you are looking in and what you are looking for

the housing here is horrible, it hard to find and what do find is over priced and falling apart. Once you are locked into it there's really no point in trying to sell because you will never get back what you have put into it and all you will end up doing is loosing tons of money.

the housing situation in teton is extreme if not ridiculous there is an extreme lack of affordable housing

the jobs here are far and few and even though i have the education i will be given the opportunity that i was given living texas. the jobs here for woman are even harder to come by. its very sad here, its like i have stepped back into time and im being judged on how i look and not who i am.

The move has gone very well to Cheyenne, Laramie County.

The only issue we have had with our move to Evansville, Natrona County is the roads. In our part of town the roads are not paved. They are lose gravel, I have had minor damage to my tires & paint of my car. I would like to see the roads paved soon.

The only problem I have is you need to be a full year resident before you can get your hunting & fishing license. Besides that I love it here in Wyoming.

The only thing & I mean only thing is the waiting year after moving in to get hunting tags. Here in Cody, Park County we were told we had to wait for a year of residency go by before we can get the resident hunting license. I feel this is a catch 22. Besides that we love it here.

The only thing I could possibly say about my move to Wyoming is that the shopping is not good, its cold a lot. Besides that I love it here...

the quality of housing for the price being asked is not fair, the home are filthy and in very poor condition and the prices are extremely high. i feel like the landlords should have some kind of health codes to withhold as owners and i'm seeing this across Wyoming.

the wind sucks

there doesn't seem to be any gun laws or leash laws and the justice system it seems a little crocked to me when it comes to kids they are taking landlord to court because they are both disabled and she tried to evict them, but she won't fix anything in the house they are renting. the wiring is messed up, among other things.

they love it in WY

they love living here!

they love wyoming

they moved from the san francisco bay area and she says the housing in Laramie is comparable to the ghetto neighborhoods in the bay area. she said many of the properties they looked at smelled like beer and pee, and they had a very hard time finding a place that would allow pets. also, the basement apts are like death traps. they have windows to escape through in case of emergency, but if there's snow, they would be blocked.

they wanted to rent a house and everything they looked at was in very poor condition and it was \$3000/mo to rent a brand new home, so they just decided to get an apt. she has since decided they will not be buying a home there because it is too far away from a city. she loves good food and shopping and she has to drive 3 hrs to salt lake city or jackson hole to do any of that. rock springs has no entertainment, shopping, etc.

Things have been great.

This is my husband and I second & last move to Wyoming. We love it here & plan to stay for the duration now.

this place is completely dead since the coal and oil mines have closed and i dont see us bouncing back from this

too much wind. water/sewer/trash included in lot rent. he pays electric.

utilities are really high in this area. he's from Iowa and his parents have a 5000 sqare ft house and pay not much more than he is paying in his apt here.

very happy with WY

wanted a small town feel something smaller than Portland Oregon and that's exactly what i got, i love it here!

We are having a great time here in Wyoming. The people are nice & helpful.

We are very happy with our move back to Wyoming.

We have had a very poor relationship with our current Landlord. I feel his business practices are suspect. We plan on building a house soon in another part of the state.

We live here in Buffalo, Johnson County about half the year.

We live on eighty acre plot, we love it.  
we love it here  
We love it here but the frontier day people are kinda loud.  
We love it here in Casper, Natrona County. We moved here recently from Florida. The only thing I can complain about is the Wind, can't do anything about the wind.  
We love it here in Jackson, Teton County. The house prices are very high though.  
We love it here in Wyoming!  
we love it here, it's awesome  
We love it here, should have moved here fifty years ago.  
We love Wyoming. Couldn't be better.  
We moved from Alaska to retire here. We wanted the least amount of people & crime in the state we chose & Wyoming was the place for us.  
We will have our house paid off this Friday here in Laramie, Albany County. We moved here from Tennessee. Don't miss the humidity there.  
weather could be better  
Well I had some nice neighbors when I moved here that helped me with some local info like DMV rules & community knowledge. It would have been nice as a new resident to have maybe a packet that helps with all the local information that would come in handy.  
Well when I moved here the first thing the Home Owners Association asked me is if I owned a gun safe. I think they were trying to gage my political beliefs. I moved away from Florida because it felt like a third world country with all the Central & South Americans that live there. Some of them have been in the US for years & years & still can't speak English, I had to move away from that.  
went to college in Wyoming and after graduating decided to come back and become a permanent resident of the state!  
went to get a fishing license and they said i had to live here for at least a year to get one. a residence one is \$25 and non-residence one is \$100 kind of crazy if you ask me, after I've spent thousands of dollars to move here now I've got to spend another extra \$75 what we found lacking was a supply of short and long term rentals.  
why one of the biggest employers in Fremont terminates the residents in the county for no reason and apparently can get away with it, Sage West seems to get away with doing what ever they want. and they did take a tax credit on my as well and i would like that back. and why can they bill medicaid and except federal funding when there isn't a doctor in the unit, and why when i went to collect unemployment and i was denied.  
winters are a little harsh  
would be better to fix up existing properties rather than build new. feels that they build out too much.  
would be nice if they put ice melt on the roads. the cost of responding to accidents seems like it would outweigh the cost of putting something on the roads to prevent accidents.  
would be nice if wyoming, in general, was a little more open-minded. alot of the people don't want to see change, even though the oil/mining industry is not doing well. she feels that if people were a bit more open to new ideas, they could turn the economy around.  
would like to get a job in her field in WY, but it seems like there's no professional positions for younger people. she just graduated last summer with a bachelors in psychology and can't find work in that field, so she's probably going to have to move away again.  
Wyoming needs better road maintenance.

## **APPENDIX H. WCDA HOMEBUYER PROGRAM DATA**

---

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 in an effort to facilitate homeownership. The tables in this section provide data, by county, on the various characteristics of the loans purchased by the WCDA and attributes of the homes purchased through these loans and those residents who purchased them, by fiscal year. While there are only select years printed, the totals include data from all years.
