

## PLATTE COUNTY

### Demographics

The Census Bureau’s current census estimates indicate that Platte County’s population decreased from 8,667 in 2010 to 8,562 in 2017, or by 1.2 percent. This compares to a statewide population change of 2.8 percent over the period. The number of people from 25 to 35 years of age increased by 15.6 percent, and the number of people from 55 to 64 years of age decreased by 5.5 percent. The white population decreased by 2.9 percent, while the black population increased by 78.6 percent. The Hispanic population increased from 580 to 701 people between 2010 and 2017 or by 20.9 percent. These data are presented in Table II.16.1.

Platte County vs. Wyoming  
2010 Census and Current Census Estimates

At the time of the 2010 Census, there were 103 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 10.8 percent, as shown in Table II.16.3.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.16.4, shows data on household type by tenure in the 2016 5-year ACS data. Household type is broken down by family households and non-family households. In 2016, there were an estimated 2,482 family households, of which 1,949 housed married couple families and 533 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 186 families, or a female householder with no husband present, of which there were 347 families. There were also an estimated 1,198 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Platte County was 67.4 percent, which compared to the statewide rate of 65.2 percent. Of the family households in Platte County, 78.5 percent were married households, which compared to 79.5 percent in the State of Wyoming.

<sup>115</sup> In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

Table II.16.5, displays the 2016 5-year ACS census data for household type by household size. In 2016, there were 1,595 two-person family households, 280 three-person family households and 365 four-person family households. One-person non-family households made up 86.9 percent of all non-family households or an estimated 1,041 households. Platte County’s two person households made up 46.8 percent of total housing units and four person households made up an additional 9.9 percent, which compares to 37.8 and 11.6 percent, respectively, for the State of Wyoming.

**Annual Unemployment Rate**  
 Platte County  
 1990 – 2017 BLS Data

The BLS produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent only filled jobs, whether full or part-time, temporary or permanent, by place of work the pay period. Data from this series are from the period of January 2010 through December 2017 and are presented in Table II.16.21, with the 2017 information considered preliminary (p). Between 2016 and 2017, total annual employment increased from 3,474 persons in 2016 to 3,560 in 2017, a change of 2.5 percent.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2016, the most recent year for which data are available, Platte County recorded 5,768 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$377,861,000, and real per capita income was \$43,532 in 2016. This compares to a statewide average real per capita income of \$55,116. The average earnings per job in the county was \$46,056 in 2016, while Wyoming average earnings per job was \$52,490. These data are presented in full in **Volume II. Technical Appendix**.

## Housing

According to the Wyoming cost of living index, real average apartment rent in Platte increased by 0.2 percent from fourth quarter 2016 to fourth quarter 2017 from \$599 to \$611. During that same period, detached single-family home rents increased by 1.6 percent.

Platte rental prices experienced average annualized increases of 1.1 percent for apartments and 1.7 percent for houses since second quarter 1998 through the fourth quarter 2017. These figures compare to state average annualized increases in rental prices of 0.7 percent for apartments, 1.2 percent for houses, 0.9 percent for mobile homes plus a lot, and 0.9 percent for mobile home lots over that same period. Table II.16.24, at right, presents the Platte data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Platte County decreased from 32 authorizations in 2016 to 24 in 2017.

The real value of single-family building permits increased from \$189,891 in 2016 to \$225,890 in 2017. This compares to an increase in permit value statewide, with values rising from \$359,790 in 2016 to \$324,025 in 2017. Additional details are given in Table II.16.25.

### Diagram II.16.4 Single Family Permits

Platte County  
Census Bureau Data, 1980–2017

### Diagram II.16.5 Total Permits by Unit Type

Platte County  
Census Bureau Data, 1980–2017

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2017, the average sales price in Platte County was \$174,380. This represented an increase of 2.7 percent from the previous year. Wyoming’s average was \$292,759, an increase of 4.4 percent over the previous year. A comparison of average sales prices between 2000 and 2017 is displayed in Table II.16.26.

Year	Platte County Average Price (\$)	Platte County Annual % Change	Wyoming Average Price	Wyoming Annual % Change

From June through July of 2018<sup>117</sup>, a telephone survey was conducted with landlords and rental property managers throughout the Wyoming. Table II.16.27, presents some basic statistics about the completed surveys.

Diagram II.16.7, shows the historical vacancy rate from Platte County and Wyoming over the period of June 2001 to June 2018.

<sup>116</sup> Those signified as *a* in the “year” column of Table II.1.27 are conducted in June/July of each year. Those signified as *b* are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.  
<sup>117</sup> Wyoming Rental Vacancy Surveys done during June/July are designated as 2018a, and surveys done during November/December are designated as 2018b.

**Vacancy Rates by Year**  
 Platte County vs. Wyoming  
 RVS Data, June 2001 – June 2018

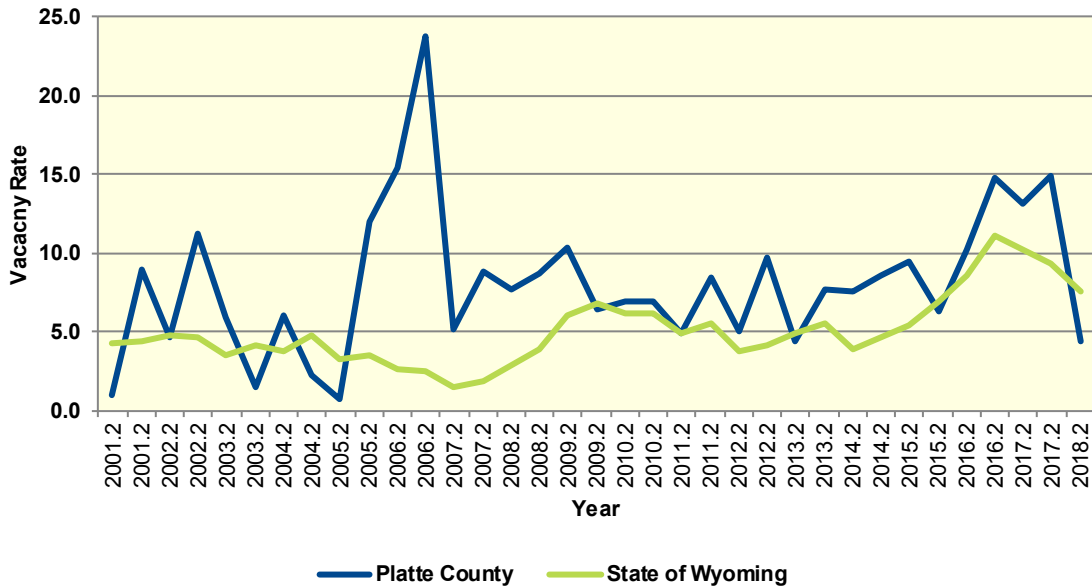

Diagram II.16.8, shows the average rent of single-family and apartment units in Platte County. In 2018, rents for single-family units were to \$696.4 and average rent for apartments were \$441.2.

**Diagram II.16.8**  
**Average Rent of Single Family and Apartment Units**  
 Platte County  
 RVS Data, June 2006 – June 2018

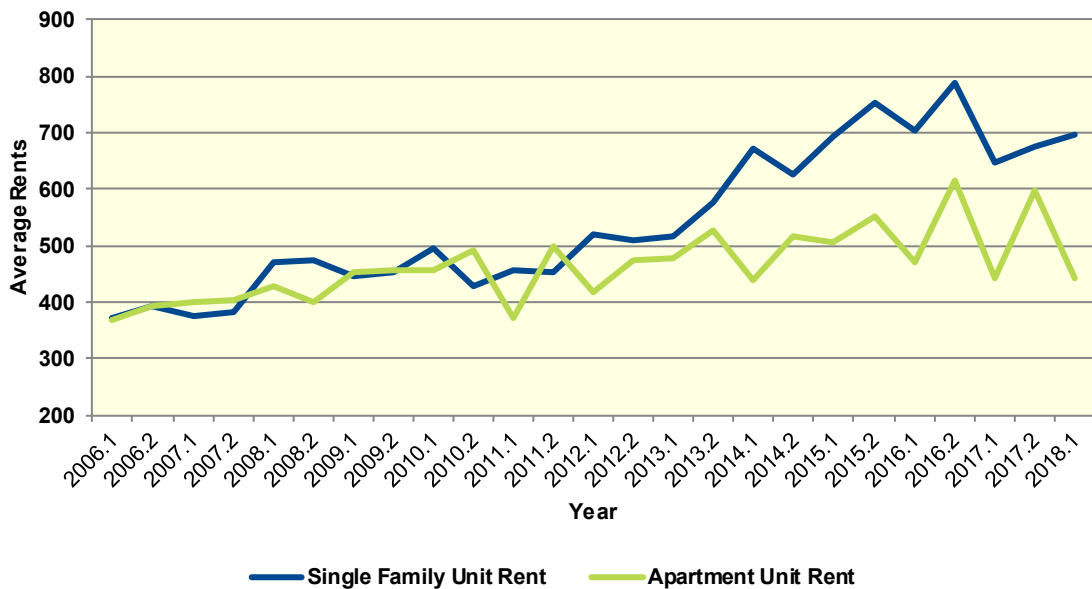

Table II.16.28, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 33 single family units in Platte County, with 3 of them available. This translates into a vacancy rate of 9.1 percent in Platte County, which compares to a single family vacancy rate of 4.4 percent for the State of Wyoming. There were 91 apartment units reported in the survey, with 0 of them available, which resulted in a vacancy rate of 0 percent. This compares to a statewide vacancy rate of 4.4 percent for apartment units across the state.

<b>Table II.16.28</b> <b>Rental Vacancy Survey by Type</b> Platte County 2018a Survey of Rental Properties			
Unit Type	Total Units	Vacant Units	Vacancy Rate

Table, II.16.44, shows the most common answers from the 2018 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Platte County had a total of 4 respondents, with an average persons per household of 3.0 people. Of new residents to Platte County, 50.0 percent were married and the most common age group arriving in the state was 45 to 54 years old. Most new residents moved for a new job.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 50.0 percent of respondents neither owning or renting, but having some other housing arrangement. The average rental payment in Platte County was \$500. When asked if they were satisfied with their current housing, 75.0 percent said they were satisfied with thier current housing.

<b>Table II.16.44</b> <b>Most Replied Response</b> Platte County HNA Survey: Fiscal Year 2018	
Question	Most Replied Answer (%)
<b>Demographics</b>	
Total Number of Respondents	4
Number of persons in household (Average)	3.0

Do you own or rent	Other (50.0%)
How many bedrooms (Average)	2.5
How many full bathrooms (Average)	
Average mortgage payment	\$
Average rental payment	\$500
Are you satisfied with your current housing	Satisfied with current housing (75.0%)
<b>Housing Demand (If unsatisfied with current housing)</b>	
Reason you are unsatisfied	.
Are you seeking to change your housing situation	Seeking different housing (100.0%)
What type of unit are you seeking	Apartment (100.0%)
Type of tenure seeking	Seeking to rent (100.0%)
Expected rental price	\$501 to \$600 dollars (100.0%)

When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking an apartment unit. When asked if they preferred to own or rent, 0.0 percent wanted to buy and 100.0 wanted to rent their next residence. Of those respondents who wished to rent, the most common response, 100.0 percent of respondents, anticipated spending \$501 to \$600 dollars. Additional survey data are presented in **Volume II. Technical Appendix**.

**Housing Problems**

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2016 5-year ACS data, 16 or .4 percent of households in Platte County were overcrowded and another 0 or 0 percent of units were severely overcrowded, as shown in Table II.16.45. This housing problem was far more prevalent in renter households as compared to owner households.

<b>Table II.16.45</b>

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or

shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2016 5-year ACS, a total of 191 units or 4.1 percent of all housing units in Platte County were lacking complete kitchen facilities. This compared to 2.7 percent of households statewide without complete kitchen facilities. These data are presented in Table II.16.46, at right.

<b>Facilities</b>	<b>Platte County</b>	<b>State of Wyoming</b>
Complete Kitchen Facilities	4,507	260,769
Lacking Complete Kitchen Facilities	191	7,218
<b>Total Housing Units</b>	<b>4,698</b>	<b>267,987</b>
Percent Lacking	4.1%	2.7%

At the time of the 2016 ACS, a total of 156 units or 3.3 percent of all housing units in Platte County were lacking complete plumbing facilities. This compared to 2.6 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.16.47.

<b>Facilities</b>	<b>Platte County</b>	<b>State of Wyoming</b>
Complete Plumbing Facilities	4,542	261,033
Lacking Complete Plumbing Facilities	156	6,954
<b>Total Households</b>	<b>4,698</b>	<b>267,987</b>
Percent Lacking	3.3%	2.6%

The third type of housing problem reported in the 2016 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Platte County, 18.8 percent of households had a cost burden and 8.5 percent of households had a severe cost burden, which compared to 14.2 percent with a cost burden and 9.6 percent with a severe cost burden in the State of Wyoming. Roughly 25.8 percent of homeowners with a mortgage in Platte County experienced a cost burden and 7.0 percent experienced a severe cost burden, while 22.2 percent of renters had a cost burden and 13.9 percent had a severe cost burden, as seen in Table II.16.48.

### 2017 Household Forecast

The 2017 Housing Needs Forecast reports housing demand projections from 2017 to 2050, with 2016 as the base year. Three possible economic futures portraying moderate, strong, and very strong growth were used to create three forecasts. The strong scenario is the base case, representing conditions as of today. The moderate growth scenario forecast projects household growth with the assumption of slower population and employment growth, where the very strong growth scenario incorporates assumptions of much stronger employment and population growth over the forecast horizon.

The primary objective of offering three alternative forecasts is to enhance planning capacity and to provide additional tools in order to assist state and local governments in their ongoing housing needs assessment, thereby facilitating informed discussion about housing demand at the local community level. These forecasts prove useful when interpreting the need for new or rehabilitated housing and whether single-family or rental housing activities might be best undertaken.

All three forecasts span the period of 2017 through 2050 and offer predictions of the demand for housing. However, only the strong growth scenario is report here. The moderate and very strong scenarios are reported in the WCDA housing forecast report.

This report uses the modified population projections based on projections released from Woods & Poole Economic, Inc (W&P).

Income categories were calculated using the Housing and Urban Development CHAS (Comprehensive Housing Affordability Strategy) data and are expressed as a percentage of area Median Family Income (MFI).

This distribution is assumed to remain constant over the forecast horizon. Table II.16.49, shows the current CHAS housing problem estimates for the period of 2010-2014. Both the income distribution and the percentage share of households experiencing housing problems were derived from this data and assumed to remain constant throughout the forecast horizon. As can be seen there were a total of 674 owner occupied and 310 renter occupied households experiencing a housing problem.

Table II.16.50, shows the total estimated housing by tenure for Platte County. As can be seen, in 2030 there are estimated to be a total of 3,120 owner and 1,020 renter occupied households or a total of 4,140 households. By 2050 there are estimated to be 3,398 owner, 1,089 renter for a total of 4,487 households in Platte County.

Year	Owner	Renter	Total
2016	2,776	904	3,680
2020	2,915	966	3,881
2025	3,021	994	4,015
2030	3,120	1,020	4,140
2035	3,207	1,043	4,250
2040	3,280	1,062	4,342
2045	3,342	1,077	4,419
2050	3,398	1,089	4,487

Table II.16.51, shows the incremental housing demand for Platte County. The incremental housing demand estimates the additional housing stock needed above the currently available housing stock. In 2016, the base year, the incremental housing demand is set at zero and all future years show the estimated stock needed in addition to the current housing supply to satisfy future demand.

As can be seen in 2030 an estimated additional 344 owner-occupied and 116 renter occupied households will be needed above current 2016 housing levels to address future household demand. The incremental housing demand is also reported by income breakdown. In 2050, it is estimated Platte County will see an additional 807 households, of which 132 are estimated to have incomes of 0 – 30 percent of Median Family Income (MFI). And additional 158 households above current 2016 levels are expected to have incomes of 50.1 to 80.0 percent of MFI.

Table II.16.52, shows the Incremental Total Housing Need Forecast for Platte County. The incremental total housing need forecast is calculated by adding the incremental housing demand forecast with current un-met housing need. Un-met housing need is defined as any household experiencing a housing problem as defined by HUD. The total housing need shows the broadest measure of future housing need because it takes into account future housing demand as well as the current need among existing housing stock.

In 2016, the base year, the total housing need set at the 986 households, which represents all households with an unmet housing need that needs to be addressed, such as cost burden or sub-standard living conditions. In all future years, the incremental housing need forecast shows both existing need and need based on future demand by income. In 2050, there will be an estimated need for 1,278 owner and 515 renter occupied households for a total of 1,793 quality households.

## 2018 WCDA Loan Profile

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 611 loans purchased in Platte County between 1979 and 2018, with 2 occurring in fiscal 2017. The average home size over the period was 1,215 square feet and 1,372 square feet in fiscal 2018. For homes receiving a WCDA loan in fiscal 2018, the average year a home was built was 1998. The average household income in fiscal 2018 in nominal terms, without the effects of inflation being taken into consideration, was \$48,231. The average purchase price in fiscal 2018 was \$185,000. In fiscal 2018, 0.0 percent of loans purchased were for new construction, and 50.0 percent had female heads of household.

Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**
